Education

VIT Bhopal University

B.Tech in Computer Science — Cloud Computing Specialization CGPA: 8.19/10.0

Bhopal, India

2023 – 2027

Experience

Virtual Internship Program | ServiceNow University

May 2026

Forward Deployment & Enterprise AI Intern

Remote

- Completed **8 structured modules** in ServiceNow Administration, Agentic AI, Automated Test Framework (ATF), Flows, and CSA Exam Preparation — directly applicable to enterprise client deployment scenarios.
- Applied **Agentic AI** principles and low-code ITSM automation workflows, gaining exposure to real-world enterprise IT environments used by Fortune 500 clients.
- Earned official certificate (ID: **SNU2024599**) jointly issued by ServiceNow, AICTE (Ministry of Education), and SmartBridge.

Projects

CABO | Java, Spring Boot, React, PostgreSQL, Firebase, WebSocket, Docker, JWT | [Live](#) | [GitHub](#)

Feb 2026 – May 2026

- Engineered a **production-grade full-stack platform** in **Java + Spring Boot** with REST APIs secured via **JWT + Spring Security RBAC**; CI/CD-deployed on Render + Vercel via GitHub Actions.
- Implemented **real-time WebSocket chat** (STOMP + SockJS) with live seat availability and zero duplicate bookings via server-side prevention logic.
- Integrated **Firebase Authentication**, connection-pooled **PostgreSQL (Supabase)**, and a full admin moderation system across role-based access tiers.

PostureSense | Python, AI/ML, MediaPipe, scikit-learn, OpenCV, NumPy | [GitHub](#)

Dec 2025 – Feb 2026

- Built a **real-time AI/ML posture monitoring system** in **Python** using **MediaPipe Pose** to extract **12 scale-invariant biomechanical features** from 33 landmarks via live webcam feed.
- Trained a **Random Forest classifier** (posture classification) and **One-Class SVM** (personal calibration); delivered per-issue AI coaching with JSON-persisted session trend analysis.

HealthSenseAI | Python, Flask, scikit-learn, Gemini API, Kotlin, Firebase | [GitHub](#)

Dec 2025 – Apr 2026

- Deployed a **Python Flask ML prediction API** classifying health into **3 risk levels** from biometric data; integrated **Google Gemini AI** into a **4-layer inference pipeline** (sensor → ML → Gemini → UI).
- Built Android frontend (Kotlin, MVVM) generating **6+ real-time biometric parameters** every 10 seconds via Retrofit REST integration with the **Python AI backend**.

Certifications & Achievements

Hackathon Winner — Expert Hire × VIT Bhopal · Mahakumbh Innovation Challenge

Jun 2026

Won outright among all participating teams; built and deployed [MahaSahayak AI](#) — a Gemini-powered AI volunteer deployment platform with 4 live Python/AI API endpoints on Vercel.

AWS Certified Solutions Architect – Associate (SAA-C03) — Amazon Web Services

Jun 2026

Score: **992/1000** | [Credly Badge](#) Secure, resilient, high-performance & cost-optimized AWS architecture design.

AWS Certified Cloud Practitioner (CLF-C02) — Amazon Web Services

Jun 2026

Score: **865/1000** | [Credly Badge](#) AWS cloud services, security, architecture, and pricing models.

McKinsey Forward Program — McKinsey.org

Dec 2025

[Credly Badge](#) Selective global program; applied McKinsey structured problem-solving to complex business and client challenges.

Technical Skills

Languages: Java, Python, JavaScript, TypeScript, SQL, Kotlin

Core CS: Data Structures & Algorithms, Object-Oriented Programming, System Design, Microservices, DBMS

AI / ML: scikit-learn, MediaPipe, Google Gemini API, NumPy, SciPy, OpenCV, Generative AI, Agentic AI

Backend & APIs: Spring Boot, Spring Security, Spring Data JPA, REST APIs, Hibernate, Python Flask

Cloud & DevOps: AWS (EC2, S3, RDS, IAM), Docker, GitHub Actions CI/CD, Vercel, Render

Databases & Tools: PostgreSQL, Supabase, Firebase, MySQL, Git, Postman, Maven, IntelliJ IDEA
